

## **Andrew College Basketball 2008-09 Season Preview**

**The outlook for the upcoming season is very bright. We have six returning players from last year's team – three of them were starters last year.**

**Keywana Kendrick is returning from her All-Conference freshman campaign. Lauren Jones, our defensive stopper from last season, is back and ready to harass our up coming opponents. Rosetta Daniels, who had a season ending knee injury, returns to Andrew for her third year – she is motivated to lead our team to the next level.**

**Other returnees include Amber Fountain, who's shot is much improved. Kristen Gable returns to split time at the post and wing. Also, Alicia Cross is back to give us much needed help on the boards.**

**One of our main concerns was to get some help in the area of rebounding and post play. Hello, China Moore. China is a 6'3" Center from Chickamauga, Georgia. Also, Shameka Rice, from Sparta, Georgia is here. Shameka is a very agile forward with a good shooting touch. Dee Hill comes to us from Valdosta, Georgia. She is a strong low post player. Then, we have Kim Johnson from Thomson, Georgia. Kim can play both, the wing and the low post – which she will be used as needed.**

**Velencia Reddington, last year's point guard, has left the court and moved to the sidelines to become a student assistant coach. That left an opening at the point. Fortunately, we have two quality freshmen to fill that void. Brittnie Henderson and Tonya Horne will fill that void together. Brittnie is from Warner Robins, Georgia and**

**Tonya is from Dawson, Georgia. They have different skills that will get the job done. You will see a lot of both of them.**

**To help with the defensive scheme, we brought in Bethany Christianson from Tallahassee, Florida and Alicia Rose from Philadelphia, Pennsylvania. Both are tall wings that can run.**

**We have a very tough non-conference schedule that will help prepare us for the extremely competitive Region XVII of the NJCAA. This is the year that Andrew College can make some noise in the world of basketball. Come out and watch us play. But, be careful, it could become habit forming.**
