

ANDREW COLLEGE
******* STUDENT SUPPORT SERVICES *******
CREED

1. **We believe that a multidimensional project, which will lead participants to graduate from Andrew College and matriculate to a four-year college university, *must guide all our actions.***
2. **We believe that all persons should be treated with respect and dignity, and each should be valued as an individual with unique combinations of abilities, talents, and personality traits that can be used for positive outcomes.**
3. **We believe that we will be successful only as our students are successful, and good human involvement with and support of learners will be basic to that success.**
4. **We believe that we must demonstrate a bias for action-doing something to solve problems rather than *analyzing problems to death; changing or eliminating policies and procedures that do not accomplish desired results.***
5. **We believe clean, attractive, professional physical environment is necessary for effective teaching and learning.**
6. **We believe we should be honest with one another. We disagree without being disagreeable to create an environment that supports initiative, honesty, and achievement.**
7. **We believe we should emphasize the positive, and by our words and actions we will build a strong, positive public image that appropriately reflects reality.**
8. **We believe that we must promise only that which we can deliver.**
9. **We believe that the welfare of our SSS project will depend on participative governance, negotiations, cooperation, and good faith efforts to achieve our goals.**
10. ***We believe that The Andrew College SSS Creed will be a positive force in maximizing the goals and objectives of the program to the extent that each of us embraces and acts on the value embodied therein.***
