All proctored and unproctored online exams, must be open for the three (3) days during the “amended” Finals Week.

If any student happens to have three exams on one day or if a student has a conflict of exams, the student may request that one exam be administered at an alternative time. The student and instructor should work out a time that is suitable for both. The faculty member will provide the agreed upon make-up time to the Office of Academic Affairs.

The last regular class meeting will serve as the final exam date/time for evening classes and classes less than three semester hours credit.

All exams will be held as scheduled. Students must make their travel plans accordingly.
