Andrew College signs Articulation Agreement with Georgia Independent College Association 4-Year Institution Members

Andrew College signed an articulation agreement with the Georgia Independent College Association (GICA) four-year member institutions. This agreement ensures a seamless transition for Andrew College graduates who select GICA baccalaureate degree granting institutions to further their post-secondary career.

“Andrew’s faculty does a tremendous job preparing students for further study at a baccalaureate degree granting institution”, said Academic Dean Jason Goodner. “This agreement affirms the quality of our academic programs and ensures a seamless transfer of credits with our fellow GICA members”.

This articulation agreement increases the number of transfer options for Andrew College graduates who seek to earn a baccalaureate degree. The agreement states that students having a minimum 2.0 GPA for all academic work completed at Andrew College and an associate degree from Andrew College will automatically be admitted to any participating GICA member four-year institution.

Andrew College President, David Seyle, said he appreciates Dean Goodner’s leadership by providing our graduates greater access to pursue a bachelor’s degree. President Seyle stated further that coupling our existing agreements with neighboring regional public institutions enhances Andrew’s ability to meet the needs of students in Southwest Georgia.

The participating GICA four-year institutions include:

Agnes Scott College
Berry College
Brenau University
Emmanuel College
LaGrange College
Mercer University
Paine College
Piedmont College

Point University
Oglethorpe University
Reinhardt University
Shorter University
Thomas University
Toccoa-Falls College
Wesleyan College
Young Harris College
