ANDREW
MEANS
BUSINESS

The Business Administration program at Andrew College will provide you the tools you need to be successful in today's fast-paced business climate.

Curriculum/Coursework

Emphasizing the breadth of business systems and processes, with a special eye toward small business development, our program will train you in different aspects of business such as the principles of management, finance, small business management, marketing, strategic management, international business, agribusiness and organizational behavior.

The Bachelor's Degree program provides students with a number different academic tracks:

- | | |
|------------|-------------------------|
| Accounting | Marketing |
| Leadership | General Business |
| Management | Supply Chain Management |

Internships

Your career will get an early start as you will be required to complete a supervised internship before graduating. Our faculty members will be able to assist you in finding internship opportunities in the local community or region.

Transfer Options

Students completing their Associate's degree at another college are welcome to transfer to Andrew College to complete their Bachelor's degree in Business Administration. Andrew currently has articulation agreements in place with several two-year colleges including Albany Technical College, Wiregrass Technical College and Enterprise State Community College, which can make the transfer process even easier.

Career Options

The Business Administration program at Andrew College can lead you to a wide and diverse range of traditional and non-traditional career possibilities such as working in the health, grocery, construction, chemical, utilities, banking or fashion industries. Some types of job titles that you may have include

- Accountant
- Commercial Loan Officer
- City Manager
- Human Resource Manager
- Public Relations Specialist
- Sales Manager
- Advertising Executive
- Market Research Analyst
- Financial Officer
- Small Business Owner
