

MAJORS

20
—
21

Andrew College offers a variety of major programs at both the Bachelor's and Associate Degree level. Most of the Associate Degree programs are designed to enable you to transfer into another college for the final two years of coursework. Others, like Nursing and Respiratory Therapy, provide the educational background you need in that field to join the work force in that field after completion of the program.

Bachelor's Degree Programs:

Business Administration (available both on campus and online)
