please feel free to contact our office locally at 229-732-5958,
toll-free at 800-664-9250 or by e-mail at financialaid@andrewcollege.edu.

Andrew College is accredited by the Southern Association of College and Schools Commission on Colleges (SACSCOC) to award certificate, associate, and baccalaureate degrees. Questions about the accreditation of Andrew College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur GA 30033-4097, by calling (404-679-4500), or by using information available on SACSCOC's website (www.sacscoc.org).

The BSEE is approved by the Georgia Professional Standards Commission, (GaPSC).

**ANDREW
MEANS
EDUCATION**

www.andrewcollege.edu

Andrew College is proud to offer a Bachelor of Science in Elementary Education leading to initial certification as a Georgia educator. The B.S. in Elementary Education is designed to prepare candidates with the knowledge, skills, and professional dispositions necessary to meet the needs of all students in diverse settings. Completion of this degree provides the opportunity to become certified to teach pre-kindergarten to grade five in Georgia. Integrated into the program is the P-12 Reading Endorsement, which will not only aid you in supporting students with their literacy development but will also make you more marketable as a professional educator.

The Vision

In keeping with our Christian heritage and mission, the Andrew College Bachelor of Science in Elementary Education with P-12 Reading Endorsement will equip you to teach in the modern elementary classroom, helping you develop students' literacy skills while giving them the opportunity to understand their role and responsibility as a part of a global community.

The Andrew College Difference

Through participation in the BSEE program, you will develop proficiency in the many areas related to becoming a successful, elementary school teacher:

- Learning and practicing effective elementary teaching approaches and strategies
- Assessing and documenting students' academic growth and needs
- Participating, early and often, in field experiences
- Building family and community relationships
- Working toward the P-12 Reading Endorsement embedded into the coursework
- Using and integrating technology into classroom instruction
- Developing skills and knowledge on how to support rural student populations
- Becoming a competent and qualified professional educator.

Recruitment of Diverse Student Candidates

Today's classroom is diverse in many ways and we believe that graduates of our program should reflect that diversity. We also recognize that our location makes Andrew College a particularly great option for students who would like to teach in a rural setting.

Admission Requirements for the BSEE Program with Integrated P-12 Reading Endorsement

Freshman Admission: Beginning freshman must first gain acceptance into Andrew College as a student in the Associate of Science in Education degree program. Admission to the BSEE program is separate from admission to Andrew College and students typically apply for admission as sophomores after having completed most of the general education requirements. Please scan the QR code below to view requirements for the BSEE program as a freshman.

Transfer Student Admission: Transfer students who want to be accepted into the Elementary Education program must be accepted to the college, meet the transfer-entry requirements for the program and be formally accepted into the program before registering for classes. Please scan the QR code below to view the requirements for the BSEE as a transfer student.

Testing Requirements: For admission into teacher education, candidates must either pass or exempt the GACE Program Admission Assessment. Students can exempt with the following minimum scores: SAT - 1080 (Evidence-Based Reading/Writing, and Math); ACT - 43 (English + Math).
